JORDAN ELLIS

Product Analyst · Denver, CO · jordan.ellis.demo@example.com · (303) 555-0147 · Open to Denver hybrid or US remote

SUMMARY

Product analyst with 3 years of experience turning product usage data into roadmap decisions for a B2B SaaS company. Strong in SQL, A/B testing and dashboarding; comfortable presenting findings to product managers and executives.

EXPERIENCE

Product Analyst **Mar 2023 – Present**

Trailhead Software (B2B scheduling SaaS, ~180 employees) — Denver, CO

- Built 14 Tableau dashboards on product usage that the product team reviews weekly.
- Designed and analysed 22 A/B tests in Amplitude Experiment; the onboarding checklist test lifted 30-day activation from 41% to 47%.
- Wrote SQL (Snowflake) to define a churn-risk score used by Customer Success for 600+ accounts.
- Partnered with 3 product managers on quarterly roadmap sizing using funnel and cohort analysis.

Data Analyst Intern **Jun 2022 – Aug 2022**

Front Range Credit Union — Lakewood, CO

- Cleaned and analysed 3 years of loan-application data in Python (pandas); found a form step that caused 18% of drop-offs.
- Automated a weekly Excel report, saving the operations team about 4 hours a week.

EDUCATION

B.S. Economics, minor in Statistics **2022**

University of Colorado Boulder
